

MASTIC/FOAM APPLICATION MACHINE

WE BUILD MACHINES THAT WORK THE WAY **YOU WISH** THEY WOULD.

The Mastic/Foam application machine is based on our famous Insert Clip Machine. Like the ICM, it was tooled for a high production rate, accuracy and flexibility regarding extrusion variation. The Mastic/Foam application machine is made to insert mastic/foam in the extrusion. Milan Conception will customize the machine to fit your needs. We invite you to contact one of our experts and describe your production. It will be our pleasure to answer your questions.
